

PILOT TELLS THE STORY OF WRECK.

EXPLAINS HOW THE ISLANDER
RAN INTO THE ICE-
BERG.

People Had to Battle Hard to
Save Their Lives in
the Deep.

VICTORIA, B. C., Aug. 19.—Pilot L. A. Blane, who had charge of the steamer Islander at the time she struck, says: "The night was fine and as we always expect to meet her, a sharp lookout was kept. About 2:45 A. M. the crash came. The boat was under full speed and no ice was in sight and there was no fog, but the wind was blowing and it was dark and cloudy. The fatal berg was not seen until it was too late. After she struck I jumped overboard and was in the water two hours and a quarter before securing a piece of wreckage."

"I told Captain Foote that we had better hold for the beach, but he demurred and when he decided to do so the ship was taking water so fast that she would not answer her helm."

"Then I called the mate and ordered the boats out. This was done and they loaded with passengers. Many passengers jumped overboard with life preservers and rushing he thinks all would have been saved with the possible exception of those who did not get out of their staterooms, among whom were Andrew Keating and his two sons Arthur and Julius of Los Angeles."

"The crew, on the other hand, behaved splendidly and looked to the safety of the passengers. After the boats had been launched the crew turned their attention to the rafts, but these were rushed and after they had been launched some of the crew had to swim for wreckage, as there were too many of the rafts. He believes the vessel sank in twenty-three fathoms and that the boiler did not explode but that the wood work was carried away by a rush of water and air. His figures show that 200 persons were drowned."

"The pilot also stated that many of the men acted badly, attempting to jump into the boats before they had been launched. Had it not been for this crowding and rushing he thinks all would have been saved with the possible exception of those who did not get out of their staterooms, among whom were Andrew Keating and his two sons Arthur and Julius of Los Angeles."

SURPRISED THE BOERS AND KILLED TWENTY-THREE.

South African Constabulary Does
Some Clever Fighting in
Cape Colony.

LONDON, Aug. 19.—Lord Kitchener, in a dispatch from Pretoria, dated today, says that a party of South African constabulary yesterday surprised a group of Boer fighters near Middleburg, Cape Colony, killing 23 men.

The constabulary numbered 150 men, but, owing to the strength of the enemy, 600 to 800 men, they were unable to follow up their success and withdrew. They lost one man killed and had six men wounded.

Fourteen men are missing.

SAN FRANCISCO WILL HAVE A COAL SUPPLY.

SAN FRANCISCO, Aug. 19.—Another big coal steamer came into the harbor this morning. The Matthewan brought 5,000 tons of coal from Tacoma and joined the other idle vessels in the bay. An attempt to discharge the cargo will be made within a few days.

From New York, by way of Coronel, the steamer Californian of the American-Hawaiian Line came in after a voyage of 64 days from the Atlantic coast. She brought a large quantity of freight which will be unloaded at the Spear street dock. The Californian is one of the new giant freight steamers of Williams, Diamond & Co., which were built to ply between San Francisco, New York and Hawaiian ports.

The only other arrival of note during the morning was the steam schooner Samea, which got in from Hardy Creek, with a load of tan-bark.

WEDDING OF DR. M'COY.

The wedding of Florence McCoy, M. D., and Dr. Reuben Charles Hill took place this afternoon at 3 o'clock in the presence of the immediate relatives and friends of the contracting parties at the home of the bride's parents on East Twelfth street.

It was performed by Rev. Carson Shaw, rector of the Church of the Advent in East Oakland.

The guests were attended by Harry McCoy, a brother of the bride. The bridesmaid was Miss Beth Allen. Miss McCoy was attired in white point d'esprit satin over white tulle and presented a charming appearance.

The parlor in which the ceremony was performed was decorated in white and green, white carnations and ferns were employed in the garniture. These colors entered into the floral decoration of the dining-room and were supplied

EX-CLERK DIMMICK IS PLACED ON TRIAL.

WOULD LIKE TO MAKE A STATEMENT TO HIS FRIENDS IN
OAKLAND BUT SAYS HIS LAWYERS WILL
NOT LET HIM TALK.

SAN FRANCISCO, Aug. 19.—The trial of Walter M. Dimmick, ex-Chief Clerk of the Mint, on a charge of stealing \$50,000 from the United States Mint, which was to have commenced this morning at 10 o'clock before U. S. Commissioner Hancock in this city, was continued until 2 o'clock this afternoon, to give way for the hearing of the case of E. B. Clayton on the charge of embezzlement.

Dimmick was brought into the presence of the Commissioner this afternoon at 2 o'clock. His face was pale, evidently the result of his confinement in jail.

"While waiting for the appearance of the Commissioner, Dimmick said to a TRIBUNE reporter: 'I know I have a number of friends

in Oakland who take an interest in my case. For their benefit, I would like to make public a statement of the facts of my case, but, upon the advice of my attorney, I will continue the policy of silence heretofore maintained. The United States officers have not permitted me to talk. When my examination takes place this afternoon, the character of the evidence will be made known.'

"The defense will be outlined. I am confident of acquittal. I am bearing my confinement very well. I have no fear of the ultimate outcome."

Secret Service Agents Hazen and Burns are very confident of securing a conviction.

"They will rely, it is understood, on direct and not circumstantial evidence."

When Dimmick's preliminary examination takes place this afternoon, it is expected that he will make a statement to his friends in Oakland.

SCHLEY WANTS TO KNOW WITNESSES.

HIS LAWYER CALLS AT DE-
PARTMENT TO GET A LIST
OF NAMES.

Judge Advocate Will be Asked to
Give Names to the
Defendant.

WASHINGTON, Aug. 19.—The Navy Department has decided that the Schley Court of Inquiry shall be held in the gunners' workshop at the navy yard.

The workshop is a large new building and well adapted to the requirements of the court. Judge Jere Wilson and Hon. Isaac Raynor, counsel for Rear Admiral Schley in the coming Court of Inquiry, called on Acting Secretary of the Navy Hackett today and made inquiry regarding the Department's list of witnesses.

They were informed that the Department had no prepared list; that the preparation of this list is in the hands of Captain Lemley, the Judge Advocate of the Court, who is now in Cincinnati, and who is expected to return to Washington next Monday.

They also were informed that counsel for Admiral Schley could write a letter to Captain Lemley asking for the list, which letter would be forwarded to the Judge Advocate, or they could await his return and then make application to him.

Admiral Schley did not accompany his lawyers. It is understood that a letter will be addressed to the Department by Admiral Schley's counsel asking for a list of the witnesses. It is stated that the call on Secretary Hackett was informal.

Advices from the towns of the North Coast below Cape Mendocino are to the effect that the shortage of provisions on account of the strike has been relieved somewhat by the arrival of several small steamers from this city and from Portland. Above Cape Mendocino the situation is not much improved. At Eureka and Crescent City there is a dearth of flour and other supplies and few vessels are taking in cargoes. The regular arrival and departure of the mails has also been interfered with by reason of the failure of steamers to make their regular trips. In some cases the experiment of sending the mails by the overland route is being tried, notably from the smaller towns along the coast.

WORKING HARD ON THE BOYCOTT.

SAN FRANCISCO STRIKERS ARE
SENDING OUT THOUSANDS
OF CIRCULARS.

Large Mass Meeting of Retailers
is Planned for Wednesday
Evening.

SAN FRANCISCO, Aug. 19.—Labor leaders, in summing up the situation of the opening of the fifth week of the boycott, say they are well satisfied that a victory will be won for unionism within a short time.

While the negotiations for peace thus far have come to naught, other forces are being called into the fight and it is believed by the unionists that they will exert a powerful influence in the direction of a settlement.

MEETING OF RETAILERS.
Perhaps the most important development is the action taken by the retailers yesterday. At a meeting held by representatives of the greater number of retail trades resolutions were adopted declaring that further patronage of wholesalers known to be members of the Employers' Association will be withheld if that organization has not by Wednesday evening shown an inclination to meet the representatives of the unions on such a footing as may result in a settlement.

A MASS MEETING.
The retailers have arranged for a mass meeting to be held on Wednesday evening at Metropolitan Temple. Committees from the various retail lines are now meeting wholesalers in the same line and sounding them as to their attitude. Reports will be made by these committees on Wednesday evening and a definite plan of action will probably be evolved.

THE BOYCOTT.
The Labor Council is sending out thousands of circulars to unions in the various cities of the West, urging the placing of a boycott upon goods furnished by local wholesalers and jobbers connected with the Employers' Association. Seven firms are mentioned in this boycott circular and more are to be added in future circulars.

The Union Labor party has issued a proclamation outlining its position, and labor leaders declare that it will make a hard fight to elect a straight ticket at the coming municipal election.

S. F. MACHINISTS
MAKE A BREAK.

Hold a Secret Meeting and De-
cide to go Back
to Work.

SAN FRANCISCO, Aug. 19.—There was a decided defection from the ranks of the striking machinists today, when twenty-five moulders and thirty shipwrights deserted the strikers and went back to their old positions at the Union Iron Works.

This move was decided upon at a private meeting yesterday.

It appears that the machinists struck out of sympathy, and not being members of the Federation, they did not feel that they were obliged to remain out of employment longer.

TROOPS OVER THE BORDER.
CONSTANTINOPLE, Aug. 19.—Two companies of Ottoman troops have occupied Kilkis, a disputed territory, across the Bulgarian frontier, and the Bulgarian charge d'affaires has demanded their recall within a specified time.

JOLIET, Ill., Aug. 19.—A rumor was in circulation here today that the steel managers are preparing to start the mills this week with the aid of resident non-union men.

Members of the four Amalgamated Lodges, whose strike on Friday tied up the mills, held a protracted session today. Nothing was made public, but the strikers are understood to have discussed at length the situation at Chicago, where the mill workers thus far have refused to strike.

UNION IRON
WORKS STRIKE.

Many Vessels are Tied up and
Cannot be Re-
paired.

SAN FRANCISCO, Aug. 19.—Work on six vessels for the United States navy and one for the United States army is being delayed by the present labor troubles in San Francisco. The Union Iron Works has contracts for six warships and two submarine torpedo boats. The most important of these war vessels is the battleship Ohio. She was launched a few months ago by President McKinley, and the moment she took the water work was ceased on her.

The machinists were then on strike, and few men have since been employed on the battleship. Moored close beside the Ohio is the monitor Wyoming. The torpedo boat destroyers Preble, Perry and Paul Jones are also at the Union Iron Works. The Perry and the Preble have been given trial tests on the bay.

Changes designed to give greater speed were ordered by the Navy Department about the time the machinists' strike commenced, and the work of altering the boats has not yet been started.

The transport Sherman has been at the Union Iron Works for over six months. The transport Logan is at the Navy Yard at Mary Island for overhauling. There is no strike at the Government ship yard, and the Logan will probably be ready for sea within six weeks.

FIGHTING THE STEEL STRIKERS.

GREAT TRUST IS TRYING TO
RUN MILLS WITHOUT
UNION MEN.

Situation Remains About the
Same With Little Chance
to Compromise.

PITTSBURGH, Pa., Aug. 19.—The Steel managers made another gain over the strikers today, when two more mills at the Palmer plant were put in motion, making the total number in operation four. They claim that several of their old men have broken from the strikers and returned to their places.

MEN AT WORK.
C. L. Harper, manager of the property, said that he now had 200 men at work and that of the number about 50 were skilled men. He says that within a month the mill will be running to its full capacity. The strikers still assert that the property is helpless and that the work being done in it is not hurting their cause. The steel mill at Monessen was not started this morning, but the steel managers say it will be running by night. The fires have been started and every preparation made for actual operations. There was some excitement among the strikers, when they learned that a party of strike breakers had been spirited into the property.

VIGILANCE INCREASED.
They have increased the vigilance to prevent another surprise. They say that the managers have not secured men enough to properly start the mill, and that they are still in control of the situation.

A non-union worker employed in the Wellsville plant was seriously beaten by a party of strikers early this morning and forced to promise that he would not return to work.

Two meetings of the Switchmen's Union of North America were held here yesterday to discuss the strike. F. T. Hawley, grand master, was present and spoke at both meetings. It was decided that a strike in sympathy with the steel workers could not be ordered, but the heartiest moral and financial support was tendered to the strikers.

IN A CONFERENCE.
Grand Master Hawley suggested that the American Federation of Labor call together all the labor leaders of the country for conference on the strike, and expressed the opinion that some plan for favorably ending the strike would be forthcoming.

The situation at the Bellaire Works of the National Steel Company remains unchanged. The last furnaces have been blown out preparatory to repairs and steel works and plate mills are idle. Notices directing the men to report for their pay were issued.

HOW CROPS LOOK ABROAD.

They Will Have an Effect on the
Prices in Alameda
County.

LONDON, Aug. 19.—The Mark Lane Express today, summing up the crop situation, says:
The best authorities estimate the wheat crop of the United Kingdom at 55,000,000 bushels, that of France at 300,000,000 bushels, and the crops of Belgium and Holland at 1,000,000 bushels, a total of 356,000,000 bushels, for the great wheat crop of Northwestern Europe, which needs 654,000,000 bushels. American wheat wants not exceeding 400,000,000 bushels, has 675,000,000 bushels and is therefore able to meet with the deficit single-handed. The Russian, Roumanian, Australian and Argentine supplies are left to meet the wants of Italy and the newest buyers, like Cape Colony, Greece, Switzerland, Scandinavia, China and probably Australia-Hungary, Spain and Portugal. Egypt and India will be self-supporting for the next twelve months, but Egypt has dropped from the list of exporting countries and India does not seem able to continue her exports. The government has assumed that there will be an exportable surplus of 5,000,000 quarters, but an Indian crop authority denies that the famine is over or that the 1901 crop is abundant.

tomorrow have been posted by the management. The Amalgamated organizers are still at work and have taken the furnace men in, bringing their total membership up to 25. They say they will have 150 men organized before they stop.
The steel managers also scored at the Clark Mill in this city today. They succeeded in starting the ten-inch mill with a full crew of skilled men, and with the exception of the Clark mill, which will have every mill in the plant working.

NO BREAK IN FORCES.
According to Superintendent Brown fifty more men were taken on this morning, and he now states the force to be 600.

There was no break in the forces at the lower union mill or at any of the Carnegie properties today. The strikers maintain that they have secured many men in all of the plants in question and that in due time they will be called out.

President Shaffer was at strike headquarters today. He said the situation was unchanged. When asked about Duquesne, he said:

"If there had been any plan to do anything at Duquesne, the newspapers have spoiled it."

It could not be told whether the Amalgamated President was serious or not in this statement.

BLEW OPEN SAFE AND SECURED MONEY.

SACRAMENTO, Cal., Aug. 19.—Last night burglars blew open the safe in the office of Holbrook, Merrill & Stetson, securing over \$300 in cash and some checks. They did not succeed in getting open the steel cash box. The burglars drilled into the safe and then placed sticks of dynamite in the holes. There is no clue to the identity of the burglars.

GROOM AND HIS BRIDE RESCUED AT SEA.

OMAHA, Neb., Aug. 19.—Walter G. Preston and wife, who were rescued from the wrecked steamer Islander, were married in this city three weeks ago and were well known here. Preston was in business in Omaha for many years before going to Seattle. His wife's parents reside in this city.

JUROR DISPLACED ON THE STAND.

Edwin Whipple Says He Can Give
MacRae a Fair
Trial.

A sensation was sprung this morning in the trial of George N. MacRae, the Alameda police officer charged with the killing of Myron Brown.
When the case was called Attorney A. A. Moore demanded an investigation of a report that reached him to the effect that Juror Edwin Whipple was not qualified to try the case. For two or three days it has been rumored about the Court House that one of the jurors had remarked that the residents of his district would come near hanging him if he did not vote to convict MacRae.

MacRae's attorneys investigated the rumor and were informed that Mrs. J. Curley, sister of Myron Brown, had made statements concerning the attitude of Juror Whipple.

When Attorney Moore made his objection this morning, Judge Greene declared a recess and commenced an investigation of the matter in his chambers.

Mrs. Curley denied that she had made the statements ascribed to her, or that she had heard Whipple make any remarks that would disqualify him from acting as a juror. Whipple also denied that he had expressed any opinion adverse to the defendant.

At the conclusion of the investigation MacRae's attorneys expressed themselves as satisfied with the result. A recess was then taken until this afternoon.

Myron Brown's brother resides at Centerville. Juror Whipple resides near Decoto.

STRIKE AT FRESNO IS AT AN END.

Women and Girls Get Better
Wages and go Back to
Work.

FRESNO, Cal., Aug. 19.—The strike of Saturday of the women and girls in the seeded rusk packing houses was ended this morning, the combination according to the demand to restore the wages that obtained last season.
Moreover all male and female handlers of raisins have as a result of the strike, joined the union, affiliated with the local Federated Trades Council.

The seeders struck against the reduction from 5 to 4 cents on 30-pound boxes, 6 to 5 on 12-pound packages and 7 and 6 3-4 to 6 on 50-pound boxes; the strikers against a cut from 20 to 10 per thousand and the carton makers against a reduction from 20 to 10 per thousand.

SEVEN KILLED BY THE EXPLOSION.

YOUNGSTOWN, Ohio, Aug. 19.—Seven of the fourteen men injured by the explosion of molten metal in the blast furnace department of the Ohio plant of the National Steel Company, are dead. Their names are: Richard Richards, John Cruikshank, Mike Jorinka, Andy Kahut, Mike O'Brien, Joseph Bucos, Joseph Malinski.
Two others of the injured are in a very serious condition. The accident was caused by the machinery which handles the hot metal not working properly.

HE KILLED JUNK MAN.

Made an Engagement to Meet a
Wife and Was
Shot.

MODESTO, Cal., Aug. 19.—Last night L. L. Brown shot and killed Charles Brown, a junk dealer, at Elliott Bros. ranch, twelve miles west of Modesto.

The dead man was no relation to his assailant. He had persistently pursued and annoyed Mrs. L. L. Brown with his attentions. The wife of L. L. Brown was a domestic in the family of C. T. Elliott and her husband went down to see her and was shown notes written by the junk man. In one was a request for an appointment at 8 o'clock last night.

The husband was there with a shotgun, and when he confronted the junk man the latter made demonstrations with a pistol and L. L. Brown shot him three times with the shotgun and killed him instantly.

He immediately came to town and surrendered himself and the coroner went out for the remains and returned today. The dead man was tried three times in a Justice's Court for assault with deadly weapons and a simple assault against the 14-year-old daughter of L. L. Brown, which resulted in acquittal.

Charles Brown was also examined as to his sanity and discharged. The dead man was a native of New York, aged 45. He has no relatives. The inquest will be held tomorrow.

PROTEST AGAINST TWO SALOONS.

The following protest was filed with City Clerk Rod W. Church this afternoon:

"To the Oakland City Council—Gentlemen: Whereas, certain practices which are conducted at the Bohemia and Palm Garden saloons on Twelfth street of this city having come to the notice of Oakland Lodge, No. 162, I. O. G. T., which are a disgrace to our city; and
Whereas, the Bohemia and Palm Garden saloons have not been conducted in accordance with the law; therefore Oakland Lodge, No. 162, I. O. G. T., protests against a continuance of the license of said saloons and requests that these matters be fully investigated.

tion was called at 2 o'clock before Commissioner Hancock the accused was represented by Attorneys G. C. Collins and J. C. Campbell.

The Federal Government was represented by United States District Attorney Woodworth.

The Dimmick case was postponed one week this afternoon. The District Attorney said the matter before the Grand Jury in the meantime.

YACHT RACE IS DECLARED OFF.

LARCHMONT YACHT CLUB, N. Y., Aug. 19.—For the first time in nearly ten days there seemed a good prospect only this morning of some fine racing between Constitution and Columbia in their third contest of the Larchmont series. A strong twelve-mile northeast wind was blowing straight up the Sound, bringing in a thick mist and roughing the sea. After both yachts had been under sail about half an hour their masters decided at 1 o'clock that it was too hazardous to risk a sailing race in the Sound in such thick weather. At 2 o'clock it was quite clear, although the race has been called off.

YOUNG SAILOR MEETS DEATH IN THE SOUTH.

LONG BEACH, Cal., Aug. 19.—Ed Galbraith, a 19-year-old sailor on the launch "O. K.," walked overboard at 3 o'clock this morning while the launch was lying alongside the pier at this place and was drowned. He had just arisen from his sleep and was evidently but thoroughly awake. He formerly lived at Westmont, Cal., and his father was here yesterday endeavoring to persuade him to return home. The body was recovered this morning.

LETTERS ASKED ON MRS. COOPER'S ESTATE.

John G. Cooper has applied for letters of administration on the estate of Hattie B. Cooper, who died August 13. The estate consists of property on Russell street, near Ellsworth street, Berkeley, valued at \$2,500. The heirs are the husband, John H. Cooper, and his daughters, Lella G. and Eva J. Cooper.

WANTS DAMAGES FROM OLD PEOPLE

Young Woman Sues Her Relatives to Get Money
or Support.

The suit of Miss Catherine Hermann against her relatives, Adam and Catherine Metz of Berkeley, to compel them to either support her or pay her \$10,000 damages, was on trial today before a jury in Judge Hall's court.

Miss Hermann alleges that about a year ago she left her home in Pennsylvania and came to Berkeley to reside with the defendants, they having received her to do so. In August, 1900, it is alleged, the old couple, each of whom are over 50 years of age, requested Miss Hermann to work out to earn money to pay the taxes on their property. Miss Hermann complied with the request, but when they returned to the Metz home she found that she was not wanted. Miss Hermann alleges that the old couple have about \$10,000 worth of property and that they agreed to give her a home with them and leave their property to her when they died. She asks that the court award her \$10 a month for her support during the lifetime of the couple and that she be given their property at their death, or that she be awarded \$10,000 damages.

PRESIDENT WHEELER GREETED STUDENTS.

(Continued from page 1.)

the college life removes men from the responsibility to the same tests of diligence, industry, honesty, and orderliness that hold life at large, it is a detriment and not a help. College students cannot afford to regard themselves as specially privileged members of society, or as special in any sense. If they do, whether from the inside or the outside of stores, their place is in the common jail.

TEST OF EDUCATION.

"The supreme test of education is good health, mental health, spiritual health, physical health. The aim of all sound education is to make health abundant. Healthy thinking banishes the heightiness of ignorance, superstition, prejudice, false perspective. Wisdom is better than knowledge. It presupposes the presence of knowledge, but means health and sanity besides. Spiritual health includes sanity in the moral judgments and equity in the exercise of our duties toward God, our fellow men, and ourselves. Good physical health is as much a duty as any other, and every one of you should have some daily exercise, whether it be as active as athletic exercise or not. Sitting on the benches, it is to be remembered, cannot be counted as athletic exercise.

"It has not been my experience that the choice of subjects of study or of individual courses is in any wise so important as students generally think it is. The choice of teachers is vastly more important. In looking back upon their college life, I think mature men generally find that the teachers which have shaped them have had the personal form. I think, furthermore, that I have observed that scholarship of the finest order, inspired, creative scholarship, whenever it is met, is due to the influence of a teacher, is generally due to the influence of a teacher, is generally due to the influence of a teacher.

CHOICE OF TEACHERS.

"In your attitude toward your teachers, start out from the beginning in the unshakable faith that they are your personal friends. That they all are I can assure you, to a man. Some of us may appear more serious than others, but it is a mere matter of manner. We all like nothing better than to know those who teach personally, and it is your duty to help make it easy for us. Do not make the mistake of going through college without knowing some of your teachers personally and intimately. If you get into trouble go to some one of these teachers and tell it all, precisely as it is. I am greatly mistaken if you do not find them a doubt that you have a friend, and a good one, right in the heart of the college. If you cannot do any better, go and see the President.

BE WITH THE TEACHER.

"Do not allow yourself under any circumstances to fall into an attitude of position to a teacher. He is here to help you, not to oppose you. He can help you best if you understand each other fully. Go to him and talk the matter at issue fully over, and do not take the attitude of an attorney for your own case. You may be surprised to find a warm heart under our shining coat of mail that you dreamed existed. You will never in life find more sympathetic, even indulgent, judges than these men who teach you. They all prefer to believe the best things of you, to put the best possible interpretation upon your actions. That is what in practice I find they always do. Their work is all for you. The tests they set you are for your help and for your good. If anyone should be so lost to a sense of duty as to wish to injure himself and his teacher and so lost besides to his sense of honor as a gentleman, as to cheat, basely to cheat in an examination, whom has he deceived? Against whom has he offended? Against his fellow students who are rated with him under the same test, that to be sure, but really, after all, his offense, his wrong, is against himself. He has defiled his own honor, branded his own conscience, laid upon himself a horrid burden of sin and wrong that he must carry with him through life. In after days the memory of his college course will be stained with the thought of his honor, the very insignia of his alumnusship which ought to testify before him to a sacred and noble relationship will cry out against him as stolen goods, as the emblem of fraud, as the tokens of dishonor, as the tokens of a crime he has committed against himself. And with himself, his tainted self, he must live and commune all these days; he must live and may hide out of sight, but the alumnus is with him as long as he lives. He can never respect himself. Failing in an examination is a small thing, losing one's degree is a small thing, but it is no small thing if you must sit down, in all the silent hours you have to spend with that self of yours and look upon it, if you look straight and fair, with scorn—only with bitter scorn.

AS TO CLOTHING.

HERE is an epitaph in a Vermont churchyard: "I expected this but not so soon." Such is the epitaph on clothing worn out in the wash-tub. Underclothing may be fragile, yet it ought not to wear out in ten weeks. But this isn't wear; it is decay. You buy 5 cents worth of cheap soap and you lose the equivalent of 50 cents in the wash-tub. Ivory Soap will not harm the most delicate fabric. Is it wise not to use it? IVORY SOAP IS 99% PER CENT. PURE.

KEATING ON TRIAL FOR THIRD TIME.

The third trial of James Keating, charged with having assaulted Martin McGraw of West Oakland on the night of June 2, 1900, was commenced this morning before a jury in Judge Ellisworth's court. District Attorney Allen appeared for the prosecution, while Attorneys Chapman & Clift represented the defendant.

William Eaton was convicted some time ago of the same crime of which Keating is accused. He was given forty-five years at San Quentin. James Cronin, also charged with the crime, secured his release on habeas corpus proceedings.

The following jurors were selected: H. H. Casterson, James King, Thomas Martin, James H. Cory and George H. Fogg. Jens Jensen, James L. Fogg and John Hinkel were called to the box, after which a special venire for twelve jurors was issued by the Court.

The following jurors were excused: F. W. Greeley, A. H. Schow, W. A. Young, E. J. Blanding, Edward Clark, Sol Kahn and J. L. Hollis.

LIVERMORE MAN SENT TO INSANE ASYLUM.

Henry A. Pratt of Livermore, aged 81 years, was committed to the Stockton Insane Asylum today by Judge Melvin, on recommendation of Drs. A. H. Pratt and J. J. Medros, who acted as Lunacy Commissioners.

Pratt is a retired veterinary surgeon. About a month ago his right leg was badly lamed by a carbolic acid. Since then the flesh has been falling away. This and old age are supposed to be the causes of his insanity. He has been violent for about a week and has several times made attempts to kill himself and those attending him. He was brought to the Receiving Hospital by his son, Marshall Pratt, A. H. Hall and Constable Fitzgerald. He fought vigorously most of the time.

UNIVERSITY BOYS GIVEN FREEDOM.

This morning the case of petit larceny was dismissed against T. W. Rowland and B. Y. Macdonald, two boys from the front of Fairchild's shoe store at Fourteenth and Broadway. In court this morning Mr. Fairchild said he did not want to prosecute the boys, as he believed it was only a schoolboy prank, and requested that the charges be dismissed.

The boys were collecting souvenirs for their "frat" rooms at the University, and no doubt thought the big mirror would be quite an addition.

BOGUS GAS MAN IN POLICE COURT.

Two charges of burglary were entered against Herbert Barnes this morning. Barnes is the fake gas inspector who for several days entered houses on the pretense of inspecting the gas fixtures and while in the house took all the valuables he could find. The complaints filed this morning were by Florence Edloff of 913 Grove street and Mrs. Bertha Haskell of 142 Chestnut street. Barnes' trial will be held in Judge Smith's court tomorrow morning.

NOVEL PLEA TO A CHARGE OF LARCENY.

This morning in the Police Court, when George Buback was asked what he would plead to the charge of stealing sixty pounds of beef from Contractor Chas. Bassett, he offered the explanation that when a man took anything he intended paying for it was not stealing. His case was continued until tomorrow morning. Buback was caught at night loaded down with nails. He had nails even in his hat.

JOHN B. MCCOY TOO ILL TO APPEAR.

Judge Smith received a telegram this morning from John B. McCoy, who was to have appeared in court this morning to answer to a charge of forgery. The telegram stated that he was too sick to appear. Mrs. Ada May Felder and Mrs. Essie Young were granted permanent Grammar Grade certificates. Ella Pryal was granted a renewal of her Grammar Grade certificate. Allen Stevens, Hannah C. Stewart, and Edna E. Young were recommended to the State Board for life diplomas. Miss Eva J. Crawford who is a deputy under her father, Superintendent T. O. Crawford, is taking a week's vacation.

WILL LYNCH THE NEGRO.

PIERCE CITY, Mo., Aug. 19.—A mob surrounds the jail here threatening to lynch a negro suspected of ravishing and murdering Miss Cassie Wilds, whose dead body was found today in the woods near here. It appears that the negro assaulted the girl while she was returning from Sunday School and later cut her throat from ear to ear with a razor.

The crime was committed at the Frisco Railway bridge. The girl was crossing the bridge when the negro, who had been sitting on the rail, attacked her. A farmer in an adjoining field witnessed the assault but hearing no shot did not interfere. Later when the negro was seen running down the track he gave the alarm. The girl's body was found lying in the weeds under the bridge. A posse was organized promptly and set out in pursuit of the negro. Excitement is intense and a lynching seems likely.

ONLY TWO BIDS FOR CONTRA COSTA CROP.

Almond Buyers Did Not Show Up and Farmers Would Not Sell.

ANTIOCH, Cal., Aug. 19.—At a meeting of Contra Costa Almond Growers' Association held on Saturday only two San Francisco buyers were present to bid for the entire crop of about seventy tons. The bids were so far below expectations that they were rejected and Saturday, August 31st at 2 p. m. was set as the date for disposing of the crop. Should the bids still be below what the Association deems fair it will send an agent East to dispose of the crop. The best bid was from Armby & Company. It was about one cent per pound lower than that which the firm paid for the Davisville crop about two weeks ago and was two cents less than the Association received last year when the crop was three times as large.

FILES A PROTEST AGAINST POLICEMEN.

SAN FRANCISCO, Aug. 19.—Secretary Rosenberg of the Labor Council has filed with the Board of Supervisors a protest against the action of the Police Commissioners in engaging a large number of special policemen for patrol duty during the strike.

SIGN ORDINANCE CASE CONTINUED ONE WEEK.

The case of Walter Meese accused of violating the sign ordinance has been continued one week.

The will of the late Professor Joseph Le Conte of the State University was admitted to probate this morning by Judge Melvin. Letters testamentary were granted to the widow, Mrs. Caroline E. Le Conte, who is named in the will as executrix.

Attorney W. R. Davis was in court representing the estate, which consists of about \$40,000 cash.

Prior to his death the late scientist deeded all of his realty, valued at about \$10,000, to his wife and children. The other assets of the estate consist of copyrights on books written by Professor Le Conte.

Professor Frank Soule of the State University, with Professor George C. Edwards, witnessed the will, testified as to the authenticity of the instrument. Frank Soule, George C. Edwards and Clarence L. Cory have been appointed to appraise the estate.

SQUADRON WILL GO ON A TRIP.

WASHINGTON, Aug. 19.—It was announced at the Navy Department today that the North Atlantic Squadron would sail from Newport about the 25th instant for Hampton Roads. When specific inquiry was made as to whether this had any connection with the troubles in South America, an authoritative answer was given that it had no relation to affairs in that section. It was stated that the maneuvers of the squadron in New England waters had come to a close and that the Southern drill grounds off Hampton Roads afforded better facilities for the evolutions in contemplation.

The plans appear to have been formed some time ago. The effect of the move, however, will be to place the vessels of this squadron about a day and a half's sail nearer to the scene of the South American difficulties than they would have been if they remained on the New England coast and also in good location for coaling and equipping for sea if any necessity should arise for despatching any of these ships.

NANTUCKET, Mass., Aug. 19.—The North Atlantic Squadron has received orders to sail for Hampton Roads, and the vessels of the squadron are already getting up steam preparatory to their departure.

The exact reason for the change of plans is not known.

MAKING THE TRIP TO THE NORTH POLE.

Landing at Archangel is Described—Everybody is reported Well.

NEW YORK, Aug. 19.—A letter from a member of the Baldwin Expedition has been received here. It was written on board the America, on July 29th, and was mailed at Vardo, having been sent back by the pilot when the ship was on her way to Franz Josefland.

In the letter Anthony Fiala, the photographer with the expedition, describes the landing at Archangel, where the dogs were shipped and from which point the real voyage of the Polar trip began. The members of the party were given a banquet, after which the America sailed for the North.

According to the writer, every one at that time was well and in good spirits.

DID NOT WANT THE GOODS RUINED.

Owing to the fact that rust was beginning to ruin the possessions of Augustus Swenson, whose goods have been lying in the locker at the City Prison since the man was arrested two weeks ago, they were taken out today and counted over in the presence of the defendant. They consisted of seven purses, nine gold (?) chains, seven rings, six collar buttons, three gold pins, one gold watch, \$5 in greenbacks and \$1 in silver.

When arrested Swenson was operating a chance game. He became quite excited and threw his possessions into the water at Market street. The goods were recovered at the time by a small boy and were not opened until today. Swenson is now serving a term of fifty days for violating an ordinance for peddling without a license.

UNLOADING COAL ON THE FRONT. ONE IS KILLED MANY INJURED.

Everything was quiet along the Water Front this morning.

J. P. Taylor & Company is unloading the Wellington on the front. Two full crews are at work unloading the coal. Mr. Taylor has given his striking teamsters until next Wednesday morning to return to work. If they do not come back at that time he will get new men.

At the Howard bunkers the Pleades and Oak Branch are being unloaded. They carry large cargoes of coal.

THREATS MADE IN LETTERS.

PITTSBURG, Aug. 19.—Dispatches from Somerset, Pa., where the Second Brigade of the National Guard of Pennsylvania is in camp, report that a number of anonymous letters have been received by the regimental commanders containing threats in connection with possible strike duty by the soldiers. A fair sample is the following:

"Dear Sir: In case your command is called upon to do duty against the steel strikers do not forget that there are many laboring men and union men in your regiment and watch where you stand when you give the order to fire."

The matter has been placed in the hands of the United States postal authorities and an investigation is said to be in progress.

Nothing could be learned in Pittsburgh, as Postoffice Inspector O'Brien is out of the city.

JOHN DENEFF'S ESTATE IS TO BE DISTRIBUTED.

The final account of August Hagemann as executor of the estate of John Frederick Deneff, deceased, shows \$8,200 received and \$1,958.37 paid out, leaving a balance of \$6,241.63. A distribution is asked according to the terms of the will, which are as follows: Johann F. Deneff, the father, \$1,000; Mary H. Deneff, a daughter, \$2,000; John P. Haselhorst, \$2,000; Catharine Deneff, a niece, \$2,000; the residue to go to the executor in trust for Heinrich Frederick Haselhorst, a nephew.

SUPERVISORS OF SAN JOSE GRANT FRANCHISES.

Electric Railway Road Will Run a Distance of Ninety Miles.

SAN JOSE, Cal., Aug. 19.—The Board of Supervisors today awarded electric railway franchises covering ninety miles of road to George T. Dunlop of Gilroy, whose application was filed last June.

Contrary to expectation, opposition developed, there being two other bidders, E. Myron Wolfe and Henry Newburgh.

In the award Wolfe made a protest, claiming that the Board had exceeded its jurisdiction in considering the bids together, and that Dunlop's bid was void because he had not accompanied it with a certified check.

FOREMAN OF A MINE MEETS WITH A TRAGIC DEATH.

SACRAMENTO, Cal., Aug. 19.—A special to the Bee from El Dorado says: L. G. Sperry, foreman of the Union mine, met with a tragic death at 3:15 P. M. Saturday. He made a mis-step and fell down the shaft from the 8th to the 1,000 foot level and was dashed to pieces. Sperry was a careful and experienced miner and well known in mining circles throughout the coast.

His wife and two children are residing in Oakland, where the latter are being sent to school.

WOMAN CREATES A SCENE ON THE STREET.

This morning Margaret Smith started to raise a disturbance on the corner of Fourth and Broadway, but was interrupted by Detective Kite. The woman was intoxicated, and about noon began shouting and singing on the street. When Kite attempted to remove her she fought desperately and the detective was compelled to call assistance to arrest the woman.

OUR SISTER REPUBLIC.

While the progress of Oriental and South American nations is being made a subject for comment, it is not amiss to also say something about a country nearer home—our neighboring Republic of Mexico. It is not surprising the world by any special achievement, but it is nevertheless making ground rapidly and will continue to do so as long as the present wise administration of affairs is perpetuated.

Many people have an odd idea of Mexico. They seem to think that the moment the frontier is crossed they are in a country entirely different to our own and not to be classified in the same category. Instead of this the facts are, that eliminating the imaginary border we have an absolute and similar continuance of our own territory, which is but natural after all. For the first 150 miles after crossing the Rio Grande anywhere between El Paso and up to the Yuma line, Northern Mexico is a duplicate of the barrenness of Southern Arizona. Treeless sand wastes, devoid of vegetation or life of any kind stretch before the eye and then come the plains of the Rio Rio and other large estates where, owing to the scarcity of water, land can be purchased for 25 cents an acre. After Chihuahua is reached the country takes on a better aspect and from there to its southern extremity it contains fertile valleys, agricultural lands, stock ranges, mines and most of the other requirements of a prosperous nation.

The natural indolence of the native people was for centuries the drawback of the country, but President Diaz, the present arbiter of the affairs of the Republic, has succeeded in shaking off much of the sloth and with the awakening the nation has taken on new life. Liberal laws for aliens and concessions to foreign investors have brought about the influx of much outside capital and as the country develops the natives themselves are realizing the advantages by which they are surrounded and a general stimulus has been injected into local conditions. Mexico as yet makes no claim to a commanding position in the world's make-up, but it is bound to become notably so some day, for its mineral wealth is so great that that item alone means its pre-eminence. In addition to this it possesses the advantages of semi-tropical productions, including coffee, rubber, sugar and other necessities and a coast line unsurpassed by that of any commercial nation, so with an expansion of the present enterprise and a continuance of liberal policies both at home and abroad, our sister republic may some day have nothing to fear by comparison even with our own mighty nation.

San Francisco has produced a boy who is said to be the biggest live on record. Oakland will have to look out when he grows up, for it is hard enough work heading off the cannibals regarding us they have been capable of with their old capacity.

AN INDUSTRIAL ALLY.
Japan continues to astound the world by her achievements in almost every branch of civilization. Her oriental conservatism has practically disappeared, and according to a special report just made to Washington by our Consul-General at Yokohama, the Flowery Kingdom promises to be an active competitor for the business of the Western world.

In 1893 Japan imported over 360,000 tons of pig iron, manufactured iron and steel goods, not including the government's war expenditures. During the same period the local iron output in Japan was but 26,234 tons, thus placing the kingdom at the mercy of the trading nations. This condition of affairs attracted local attention to the necessity of developing the rich iron deposits in the northern part of the island and brought about the formation of a number of companies that are now bidding for foreign capital to engage in the enterprise.

This is the best possible indication of the new policy that pervades the empire. In the past the caste antagonism to aliens prevented the promotion of home enterprises in foreign markets, and as the local resources were not sufficient to meet the demands the inevitable stagnation ensued. Now, however, the liberal policy that is prevailing permits of the reaching out in every quarter where the results desired can be obtained, and as the inducements being offered to foreign investors seem good there is no doubt that the anticipated responses will ensue. If so, Japan will advance as much in the next quarter of a century as she has in the past and her ambition to be known as the "England of the Orient" may be fulfilled. We can afford to encourage competition of this kind, for Japan will always be dependent upon us for many of her staples and every inch she advances naturally means a gain for our own commerce.

The Tammany contractors who are constructing New York's rapid transit tunnels will, it is said, net over a million on the job. As a rule, Tammany has been satisfied to get in on the ground floor, but this time they have gone their usual system one better and are now located below even the basement.

A row is brewing at the head camp of the Woodmen of the World because there is a disposition shown by some of the members to take the order into politics. That organization should certainly keep out of the game, for it has too many axes to grind.

Secretary Root of the War Department expresses the opinion that the Government should build its own warships. A man springing from the stock his name implies would, of course, be in favor of all the industrial plants possible.

The California Commandery that left last night for the East in a special train has taken along a carload of prunes. It is safe to say, though, that before their return the Sir Knights will succeed in getting full of other things besides the prosaic fruit.

The San Francisco bobbies are complaining that they are overworked because of the strike. Judging by their appearance, though, service on the metropolitan police force must be a fat job.

The strike does not seem to have affected the boot and shoe business, for it is reported unusually active. So many walk-outs are doubtless the cause of this.

A flock of mosquitoes attacked two ships near the Equator last week, according to the press reports. These ferocious insects don't appear to draw the line at anything.

Shamrock II. is said to have an extraordinary large boom. That's not surprising in view of Sir Thomas Lipton's experiences in handling tea.

A New Yorker is to the front with a scheme to catch fish by electricity. This plan will, of course, work best where there are lots of currents.

Another mess of corruption has been unearthed in New York. It is the same old story, though—the vicer has won through again, that's all.

Albert Gilbert, the famous British sculptor, is bankrupt. He made everything but money.

A big sugar refinery is to be built in New York. The rooms will, of course, be all constructed in suites.

WHO WILL BE S. P. PRESIDENT?

Three Prominent Railroad Men are Suggested for the Position.

Who will be the next president of the Southern Pacific? Exchanges make the following guesses:
SAMUEL MORSE NAMED.
The Call says:
"The resignation of Charles M. Hays as president of the Southern Pacific is an assured fact and it can be stated on most positive authority that his successor will be Samuel Morse Felton, president of the Chicago and Alton Railroad Company, now located in Chicago."

MOHLER NAMED.
The Examiner says:
"PORTLAND, Aug. 18.—There is a story in circulation that the visit of President H. G. Eurt of the Union Pacific here last Tuesday related to the reported resignation of C. M. Hays of the Southern Pacific. A well-known railroad man said:
"President Eurt's business was exclusively with President Mohler of the Oregon Railway and Navigation Company, and from my advice I gather that it related to Hays' withdrawal, the idea being to make Mohler his successor. Mohler would take the Southern Pacific with the understanding that the Central Pacific should go to the Union Pacific. That would do away with the executive office at Portland, and under that arrangement the O. R. and N. would fall completely under the executive management of President Eurt of the Union Pacific and the Oregon and California road would remain under Southern Pacific control."

BURT NAMED.
The Chronicle says:
"SALT LAKE, Utah, Aug. 17.—The Tribune (tomorrow) will say: The Tribune can announce that President Hays' resignation will be extended over the lines of the Southern Pacific, following the resignation of President Charles M. Hays. The resignation of Mr. Hays has not been made public as yet, but that he has resigned there seems to be no doubt. Mr. Burt, it was announced from Omaha a few days ago, would take entire charge of all improvement work on the Southern Pacific, and it was added that Mr. Burt, having made 80 gifts to the Southern Pacific, not only in its management, but in the vast line of changes, which have attracted the attention of the engineering world, was naturally the man to take charge of the Southern Pacific, on which line some stupendous changes are to be made—the cut-off at the west end of the tunnel through the Sierra and general grade and curvature reductions."

DR. BROWN TELLS OF THE UNION.
Pastor Has Something to Say About the Strike Situation.
The Rev. C. R. Brown, pastor of the First Congregational Church, preached last evening on the subject: "Christian Life Under Difficulties." In reference to the strike question he said:
"It is hard for men to live in the spirit of Christ when they are being treated unjustly by the world through no cause of their own. Take the present situation in San Francisco. Because of a something—it may be passion, greed or the highest principle, call it what you will—because of a something it takes three men in San Francisco to do one man's work. One man to drive the team, another man dressed in a blue coat and star to guard him, and a third man who is trying to stop the driver from doing his work. This places Christian life under difficulties. Those three men, who are each striving against the other, find it hard to follow out Christ's teachings. "Say a man joins a union. He joins because he is asked, though he likes his employers, is satisfied with his wages, and hours of work, and feels that he can support his family comfortably upon the salary he draws. Later he is called out on a sympathetic strike, and this family which before were contented, are reduced to poverty and he himself who was happy he made desperate. I believe that under these conditions I should find it hard to maintain a calm Christian spirit. If that man goes to work he is ostracized among his fellows, and if he does not work he sees his family grow thin before his very eyes. It is indeed a difficult problem for a man to decide. I know that I would find it hard to be as Christian as should be if all the ministers about the city should ostracize me and call me 'scab' because I did not agree with them."
"Let us look upon the other side of the question also: that of the employer. An employer who treats all his men well and who deserves their respect, makes a voluntary agreement with his men that, except under certain conditions, they shall not strike for two years. All goes well and the men are satisfied and they are ordered out in a sympathetic strike and true to the commands of their leaders they go out. The employer can do nothing, for the men as a rule have no more than personal property and he cannot secure damages from them. He is simply left in the lurch. If he had broken his contract the men would have found ready recourse in suing his property. These are some of the conditions which any cropping out of sympathy strikes and which present so many difficulties to the Christian."

SHE COMPOSES MUSIC FOR THE DANCE.
Elaborate preparations are being made for the first dance of the new Deuts Temples (German). Mrs. Charles F. Hubbard has composed and orchestrated for the piano, cornet and clarinet the "Deuts Temples of Oakland," a two-step, which will be played at the opening cotillion.

The first figure of the German will be danced to form the initials of the club and will be led by the patronesses, Mrs. M. Bluel, Mrs. George Faulkner, Mrs. Harry Beach, Mrs. M. McKinnley, Mrs. T. C. Shankland, Mrs. Jack Taylor and Mrs. Frank Brophy of San Francisco. Dancing cards will be painted for the occasion by Mrs. Bluel and Mrs. Faulkner.

Mrs. Tyler Henshaw gave a luncheon at the Piedmont Club House this week complimentary to Mrs. Charles Bonte of Sacramento.

The leading charitable affair of the near future will be the benefit performance for St. Joseph's Home for Deaf Mutes Wednesday evening.

The engagement is announced of Miss Isabel M. Herrick and Edward F. Henderson.

The Woman's Missionary Society of the United Presbyterian Church was entertained recently by Mrs. Howland at her home, 961 Market street.

Facing the Future.

There comes a time to most women when they must face the future of widowhood and motherhood. What that future has in store for them depends largely upon themselves. To a healthy woman the obligations and consequences of marriage are a lasting happiness. To a woman suffering from irregularity or other ailments of the sex, marriage may prove a mockery and motherhood a misery. Where such irregularity exists Dr. Pierce's Favorite Prescription can be used with the assurance that health will be restored. It is the most reliable medicine known to medical science for the cure of diseases which affect the delicate womanly organs. "Favorite Prescription" is a non-alcoholic medicine and is also free from opium and other narcotics.

"At an early stage of married life," writes Mrs. Flora Ann, of Dallas, Jackson Co., Mo., "I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so that there was nothing left of me but skin and bone. My husband, who was a doctor, gave me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more after I used these up. I was no more pained, and I began to gain in flesh very rapidly. I owe all praise to Dr. Pierce and his wonderful curative medicines."

Dr. Pierce's Medical Adviser sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for book in paper covers, or 31 stamps in cloth to Dr. R. V. Pierce, Buffalo, N. Y.

HOW TO READ LIPS OF OTHERS.

Sisters of North Oakland Tell How They Teach Deaf Mutes To Talk.

Next Wednesday evening an entertainment will be given in the Macedonia Theater for the benefit of St. Joseph's Home for Mutes at North Oakland. Rev. Father Sesson, the singing priest, will be the attraction. The Sisters of St. Joseph's have prepared the following statement concerning their work:
"St. Joseph's School and Home for Deaf Mutes. Method of teaching the deaf mutes.
"This school is conducted by the combined system—that is, the oral, manual and sign language. The oral method, which is instruction in speech and written language, is given a very prominent place. This method was introduced into America over thirty years ago and is rapidly gaining prominence in the education of the deaf mute. Opportunity is here given every child to learn to speak. Daily drills in speech is afforded to all who need and desire it. Adequate means for imparting instruction in articulation and lip reading are provided to such pupils as may be able to engage with profit in exercises of this nature. "The deaf child must see in order to learn, so it is very essential that his station should command a full view of the organs of his teacher. They should therefore be face to face on the same level. The child looks into the mouth and discerns every change of feature. The congenital or born mutes have no idea of sound, but they can feel the material vibrations attendant on its production. If a deaf child places his hand on a musical instrument, such as a piano, when some one is performing, he will at once feel the vibrations. In the same way he is enabled to feel the vibrations of his own voice, as well as that of his teacher. In this way each letter is taken up and learned before any attempt at its combination with other sounds is made. The complete adjustment of the vocal organs must be attended to and each element of speech learned independently. The breath must also be brought under control."

In this way, after many years of careful instruction and application on the pupil's part he is finally taught to speak and read the lips of others."

PERSONAL AND SOCIAL NOTES OF INTEREST.
Professor George Moor is in the East for a few weeks. He is announced to preach for two Sundays in the pulpit of Rev. W. C. Merrill at Lynn, Mass.

Mr. and Mrs. M. Edelstein celebrated their tenth wedding anniversary at their home, 562 Fifth street. The rooms were beautifully decorated with ferns and smilax and an enjoyable evening was spent. Refreshments were served, and the occasion was the program of the evening.

Among those present were Mr. and Mrs. M. Edelstein, Mr. H. Pantosky, Mr. J. Pantosky, Mr. and Mrs. I. Kovalsky, Mr. and Mrs. L. Asher, Mrs. Harris, Miss Sadie Pantosky, Miss Edna Kovalsky, Miss Dottie Kovalsky, Mr. and Mrs. M. Gelder, Mr. and Mrs. D. Isaacs and Mrs. H. Asher.

The King's Daughters' Circle of the First Presbyterian Church gave a benefit musicale at the home of the Misses Puget and Olive Kingsland recently. Among the participants in the program were Mrs. Grace Dickman, Miss Gertrude Hubbard, Miss Clara Louise LaFord and Will King.

Mrs. Tyler Henshaw gave a luncheon at the Piedmont Club House this week complimentary to Mrs. Charles Bonte of Sacramento.

The leading charitable affair of the near future will be the benefit performance for St. Joseph's Home for Deaf Mutes Wednesday evening.

The engagement is announced of Miss Isabel M. Herrick and Edward F. Henderson.

The Woman's Missionary Society of the United Presbyterian Church was entertained recently by Mrs. Howland at her home, 961 Market street.

LARGE EASTERN STABLES TO COME TO OAKLAND.
Thomas H. Williams Jr. Receives Assurances Before Leaving Saratoga.

A dispatch from Saratoga says: SARATOGA, N. Y., Aug. 17.—President Thomas H. Williams of the new California Jockey Club leaves here tonight for home. Mr. Williams will probably stop at Chicago to interview horsemen and induce them to ship to California for the winter racing. Mr. Williams while here received assurances from an unusually large number of owners of their intention to be at San Francisco by the time the season opened. Among the prominent stablemen are those of Matt Byrnes, trainer for the late Marcus Daly, and Pittsburg Phil, who will take his crack jockey, Shy, along.

Dan Hanlon of San Francisco today won \$10,000 on Masterman, winner of the \$10,000 Grand Union Hotel stakes. The colt was admirably ridden by Hanlon's friend, John Riman.

HIGH CLASS MEN IN RINGLING'S CIRCUS.
The remarkable development of the acrobatic idea in modern circus entertainment will be illustrated when Ringling Brothers popular big circus exhibits in Oakland next Saturday, August 24. Acrobaticism has always been a strong point in the performances of this great show. It was so last season, and it is declared to be doubly so this year. In this year's company of acrobats, it is announced, there are 60 high-class performers from all parts of the world. Those who have seen this new offering of the performance is novel, and that there is nothing old—nothing stereotyped—nothing that is hackneyed or out of date. It is novel, because it is new, and it is unique, because it is absolutely original. In a company embracing so many star performers, it is difficult to individualize, and yet there are several of these great artists whose surpassing skill entitles them to special mention. First and foremost is the famous Garconetti Troupe of Italian Acrobats. This great company of performers embraces nine men, women and children, who present a series of acrobatic performances entirely original with themselves. This is their first appearance in America, and they have created a genuine furore. New features that have also attracted wide attention are the grotesque posing and barrel jumping of the Three Marvels, and the globe juggling of the Wartenberg Brothers. The Dea Coma Family of acrobats, comprising seven ladies and gentlemen, who present the most difficult feats of high-class acrobaticism in evening costume, has never had a peer either in this country or Europe. The Alpine Sisters present an unequalled sister act. Ahrens and Ashton and the Three LaFontes belong to the new school of acrobats. The Peckey Troupe of English gymnasts present some of the most astounding acrobatic feats ever seen in a circus ring. These are only a few of the great specialists embraced in the roster of famous acrobats. In addition to these superb artists there are 60 acrobats, the greatest concourse of mid-air gymnasts ever seen in America; a superb company of 30 riders, led by Miss Amelia Peckey, the greatest lady rider that the world has ever produced; and John Rooney, the world's greatest somersault rider; forty funny clowns and an immense concourse of other clever people, who appear in the greatest three-ring circus performances ever seen in America. The trained animal features include Ringling Brothers' latest elephant sensation in evening costume, has never had a peer either in this country or Europe. PASTOR NEEDHAM TELLS OF THE TRAMP.
Says Vigorous Measures Should be Used in Doing Away With the Vagabonds.

The Rev. A. D. Needham occupied the pulpit at the Eighth-avenue Methodist Episcopal Church last evening. His subject was: "The Tramp and Our Responsibility." The pastor said:
"The Scriptures command us to work. They say, 'If any would not work, neither should he eat.' There is, among a large class of people, an aversion to labor. They are willing to beg, and to depend upon misplaced charity rather than engage in honest toil. These persons are a menace to peace. They reinforce all riots, and, during disturbed social conditions, they prey upon society. Although they will not toil, these men are constantly prating of the injustice heaped upon the wage earner, and are the first to incite strikes or other revolts against existing conditions."

"In the rural districts it has for some time been unsafe for a farmer's wife or daughter to remain at home or walk out of doors unaccompanied by a male protector. It is said that mendicants visit the State of Massachusetts annually \$150,000. The problem of the modern tramp is a serious one. They are without ambition, and prey upon the tender feelings of charity inclined men and women."

"The modern tramps will not work. They wander aimlessly from place to place. They exist largely by petty thefts, and have perfected themselves in plausible begging until it is made almost a fine art. They corrupt boys of tender years, for the reason that the lads are more successful in obtaining food from the tender-hearted housewife than the tramp. It is an abnormal growth upon the body politic."

"Moral suasion is not sufficient to reclaim these vagabonds. Vigorous measures should be used in doing away with the tramp. Laws should be drafted making the penalty for vagabondage severe."

"Man cannot escape from work, and those who try to elude this fundamental principle, are a curse to the State. The civil authorities must cooperate with the church in reclaiming the members of the great army of tramps. Christ alone can save, and the work for Christian people in this regard is plain."

OAKLAND RAILROAD MEN HAVE CLOSE CALL.

A dispatch says: "E. M. Cutting and F. B. Haack, employees of the Southern Pacific Railroad, narrowly escaped being run down by the Owl train from Los Angeles this morning. They were riding on a gasoline tricycle, used by track inspectors, and were heading Sixth-street station after having been on a trip out toward Port Costa. They were running a good clip, but to their surprise, suddenly heard the Owl heading down upon them.

"The men increased the speed of their machine in the hope that they could keep ahead of the train, but when they saw that they were losing in the race, jumped for their lives. It happened the tricycle beat the train into the station and was thrown off the rails by an open switch.

"Neither Cutting nor Haack was seriously injured by the jump, but both were sorry that they did not stay on the gasoline machine and ride into the station."

WAS SUFFERING FROM FRACTURE OF SKULL.

Asa Clark, who was arrested Friday by Police Officer Moore for drunkenness was taken to the Receiving Hospital yesterday to be treated for a fracture at the base of the skull. At first it was supposed that Clark was suffering from alcoholism. His continued lethargy caused an investigation by Health Officer von Adelung, resulting in the discovery of his injury. It is not known how the injury was sustained.

WHEELMAN HAS HIS LEFT ANKLE BROKEN.

Herbert Rose, an employe of the Columbia Cigarery, had his left ankle broken yesterday by having his foot caught in the gear of a motor tandem, which he was riding with C. D. Maggee. Rose was treated at the Receiving Hospital.

AN APPEAL TO ALAMEDA FIREMEN

Asked Not to Withdraw From the Department for the Present.

ALAMEDA, Aug. 19.—The Alameda volunteer firemen are to be asked not to withdraw until the Trustees can arrange for a pay department.

"From all I can learn," said Trustee Hammond, chairman of the Police and Fire Committee, today, "the volunteers have not been given all the attention they wanted, and I favored treating them with greater liberality. The only course open to us is to meet them with such inducements as will remove the feeling they have in the matter. We have decided to make all the improvements desired."

The City Trustees may succeed with their inducements to the Sherman and Cordes hose companies, but it is settled that they will not with the Citizens' Hook and Ladder Company, though individual members of the two hose companies say that they will not reconsider their actions. The Hook and Ladder Co has a greater reason than any of the others for quitting. This developed today, when one of the members said that the hook and ladder truck is so out of repair that his fellow firemen are afraid to ride on it. It has been in continuous use for eighteen years, and now the wheels and axles are so worn that the apparatus has become dangerous. The members of the company asked the City Trustees to have the truck repaired, but they neglected to do so. Then, rather than risk their lives they decided to resign from the department. They say they have gone too far to turn back.

According to the letter of the city ordinance governing the Fire Department only two of the companies have a legal standing. All the others have less than the minimum number of members which entitles them to membership in the department. The ordinance provides that they shall have not less than fifteen nor more than twenty-five members. The Citizens' Hook and Ladder Company has fifteen members, Thompson Hose nine, Whidden Hose seven, Sherman Hose sixteen and Cordes Hose fourteen. Under these circumstances three of the companies are drawing \$20 a month in allowance money that is not legally theirs.

The members of the three companies who have decided to withdraw from the Fire Department are the following named:

Citizens' Hook and Ladder Company—Alfred Orton, foreman; Chas. Bewick, W. F. Burns, F. E. Krumpholtz, Frank Millington, Edward Walder, E. E. Johnson, M. B. Beldoramus, J. A. Munro, Geo. Gray, Edward Young, Joseph Mazzini, James Delvecchio, A. R. King and S. Peot.

Cordes Hose Company—J. F. Bima, foreman; P. F. Fox, William Wammoth, Fred Crane, Alfred Scott, E. A. Hurley, George Manley, Charles Foster, John Crowley, M. H. Fish, Louis Cordes, Frank B. H. Baubhofer.

Sherman Hose Company—W. R. Steinmetz, foreman; P. H. Hackett, Henry Muller, Michael Ryer, Thomas Dunlavy, H. L. Souza, A. J. Ryer, Fred Newman, A. E. Cumbers, Samuel Joseph, N. W. Muller, Bert Novy, J. B. Tate, Fred Tyllesen, Howard Simpson, J. C. Hanley.

A GREAT PLAY AT THE DEWEY TONIGHT.

At the Dewey Theatre tonight Manager Stevens will present the great play, "Dr. Jekyll and Mr. Hyde." The play has been rehearsed with a great deal of care and the cast has been made with special reference to the ability of the performers.

In many respects the play of "Dr. Jekyll and Mr. Hyde" is the most weird stage production of the day. The dual character will be played in a masterly manner by Landers Stevens.

BOY SWEARS TO A BATTERY CHARGE

Says That Haywards Man Beat Him in a Brutal Manner.

HAYWARDS, Aug. 19.—Last Saturday Victor Exstrom, a fifteen-year-old boy, swore out a warrant charging Hans Nor with battery.

It seems that on Friday afternoon young Exstrom was coming from school and while passing by Antone Nelson's place he was attacked by several dogs, which chased him to the street, where he secured a stone to protect himself.

At this juncture Nor interfered. He said that Exstrom was trying to stone his dogs, and proceeded to whip the boy. It is claimed he threw Exstrom down, kicked him and pulled his ears until they bled.

The boy claimed he was hardly able to walk home when the angry man was through with him.

LARGE PACK OF THE HAYWARDS CANNERY.

HAYWARDS, Aug. 19.—On the 18th of this month Hunt Brothers Company's big cannery will have been in operation just one month. Some time was lost during the month owing to the newness of the cannery and for the lack of fruit at first.

The record made, however, does not look as if much time had been lost. The total pack up to August 18th was 55,000 cases, or 1,320,000 cans. The pack consisted principally of cherries, apricots and peaches, with some plums. There are now about 800 people employed at the cannery, and there is room for 100 more. The cost of the new cottages amounted to fully \$8,000 and are occupied by 500 people, while several hundred live in tents. Last Monday the company began shipping fruit East, at which time a carload of cherries was sent to Chicago.

The principal fruit packed now is cling stone peaches, and following these will be late Crawford and Muirs. The cannery is very much in need of an extra hygienic to protect its cottages, of which there are over a hundred.

HAYWARDS MAN IS BADLY BURNED.

HAYWARDS, Aug. 19.—By a sudden flash of flame from an oil-burner in the furnace room of the Haywards Electric Light Works Saturday, Elmer Gale, one of the firemen, was terribly burned about the head and shoulders. So badly was his flesh cooked that he is now almost at the point of death. If he does live, it will be many weeks before he can resume his work.

Gale was a new man in the place and did not understand how to manipulate the burners, which consume crude petroleum. The oil is blown into the furnace, but the draft must be regulated. Gale did not know this, but turned both oil and wind on in full force. When he placed the match, the flames shot out into his face, completely enveloping his head and shoulders.

Gale fell back, but was able to call for help. Edward McKinney, another fireman, was soon at the side of his fellow-workman. A physician was called and Gale was removed to his home.

HAYWARDS ATHLETIC CLUB ELECTS NEW OFFICERS.

HAYWARDS, Aug. 19.—A meeting of the Athletic Club of the High School was held a short time ago and the following officers were elected: President, R. J. Wulzen; vice-president, Chas. Helmes; secretary, O. H. Obermuller; treasurer, W. H. Meek. The monthly fellow-workman, A. physician was called and Gale was removed to his home.

He was found with a basket full of nails and, when taken to the City Prison, it was found that there was a pile of nails on his head which fell to the ground when his hat was taken off to enable him to be measured.

BUSINESS OF THE SUPERVISORS

Project for a New Niles Road is Given a Set Back.

At the meeting of the Board of Supervisors this morning the project of running a new road between Niles and Centerville received a set back in the report on the subject made by the viewers, on the ground that the project was not necessary and would, at the same time, be unusually expensive.

The viewers were E. C. Prather, W. Clarke and Edwin Whipple.

The request for the road was made by Mrs. H. B. Ellsworth and others.

Among other things, the report contained the following:

"We have ascertained that the opening of this proposed road is not a public necessity. The length of the road would be 3,719 feet and the width forty feet. The names of the owners of land over which the said proposed road would pass and the amount of land taken from each for said road are as follows: D. F. Moody, 1/2 of
